

Renaissance Ecosystem — Legal & Licensing Notice v1.1 (November 2025)

Prepared by: Aun Ali

Organization: Renaissance-Ecosystem (Canada)

Jurisdiction: Ontario, Canada

Email: contact@renaissance-ecosystem.com

1. Preamble and Scope

This Legal & Licensing Notice establishes the comprehensive intellectual-property, licensing, and trademark protections for all technologies, frameworks, and entities operating under the Renaissance-Ecosystem (Canada) umbrella.

All concepts, materials, algorithms, mathematical architectures, writings, illustrations, and derivative works—including all elements of the **Atlas**, **Phoenix Forge**, **Mind**, and **Genesis Biomechanical Security System (GBSS)** frameworks—are the sole property of **Aun Ali / Renaissance-Ecosystem (Canada)**.

No license, permission, or right to use, modify, distribute, copy, reproduce, publish, or commercialize any portion of the Renaissance Ecosystem or its sub-projects is granted without prior written consent.

Unauthorized use constitutes infringement under the Canadian Copyright Act (R.S.C., 1985, c. C-42) and international treaties.

2. Proprietary License Agreement + Non-Assignment Clause

All software, hardware, specifications, mathematical models, writings, AI systems, multimedia assets, and documentation produced within the Renaissance Ecosystem are proprietary and confidential.

No individual, organization, or automated system may copy, modify, distribute, sublicense, reverse-engineer, simulate, or derive competitive works from these assets without explicit written permission.

All rights not expressly granted remain reserved.

Contributor and Non-Assignment Clause

All technical, artistic, or advisory contributions—unless governed by separate written contract—are treated as **assigned contributions** to Aun Ali / Renaissance-Ecosystem.

Contributors, collaborators, or contractors receive no automatic ownership, equity, or royalty in any project or derivative.

This preserves ethical custodianship, continuity, and protection of all public-benefit technologies.

3. Trademark Registry and Classification

The following names, marks, and phrases constitute proprietary assets of the Renaissance-Ecosystem (Canada) and are protected under common-law trademark rights, pending formal registration under Canadian and international law.

A. Atlas Family (Technology / Blockchain / AI / Devices)

Atlas Proof of Life™

Atlas PoLE™ (Proof of Living Entropy)

Proof of Entropy™

Atlas Coin™ / Atlas PoLE Coin™

Atlas Hive™ — Distributed entropy and collective-verification mesh.

Atlas Mind™ — Backend intelligence layer for privacy-preserving entropy aggregation.

Atlas Companion™ — User-facing biomechanical AI interface for wellness and security.

Atlas Vault™ — Encrypted local storage and key management system.

Atlas Governance Protocol™ — Adaptive democratic consensus mechanism.

Atlas UBI Engine™ — Universal Basic-Income disbursement module indexed to regional cost of living.

Atlas Metrics™ — Entropy-to-value and performance analytic framework.

Atlas Sensor™ — Biomechanical sensor layer for entropy collection and movement verification.

Atlas Bridge™ — Cross-chain and inter-device interoperability layer.

Atlas Constitution™ — Governance and issuance charter defining economic invariants.

B. Phoenix Forge Family (Arts / Healing / Education / Community)

Phoenix Forge™ — Art and wellness-based empowerment network.

Phoenix Forge Labs™, Studios™, Sanctuary™, Residency™, Marketplace™, Curriculum™, Collective™.

Social and Creative Empowerment Program™ / Creative Empowerment Program™ — Arts-based community-healing and livelihood frameworks.

C. Mind and Biomechanical Intelligence Layer

Mind AI™ — Distributed anonymized computation network for entropy verification and ethical AI training.

Mind Prayer System™ — Secure feedback channel for collective expression and ethical governance.

Biomechanical Intelligence™ — Integrative AI framework uniting biological entropy and machine learning.

Genesis Biomechanical Security System (GBSS)™ — Self-healing biomechanical encryption architecture built on recursive entropy.

D. Governance and Ecosystem Marks

Renaissance Ecosystem™ — Umbrella framework integrating Atlas, Phoenix Forge, and Mind.

Renaissance Ecosystem Foundation™ — Non-profit public-benefit governance entity.

Unauthorized use, imitation, or derivative deployment of any mark—including confusingly similar variants—is strictly prohibited.

4. Trademark and Branding Usage Rules

A. Authorized Use

Authorized partners and researchers may reference marks only with written consent and must include:

“[Mark] is a trademark of Aun Ali, used under license by Renaissance-Ecosystem Foundation and its affiliates.”

B. Prohibited Use

No mark may be incorporated into company names, product lines, or domain registrations.

No modification, translation, or stylization implying affiliation is permitted.

Use in deceptive, exploitative, or defamatory contexts is forbidden.

C. Visual Identity and Presentation

Renaissance-Ecosystem marks must retain equal or greater prominence in co-branding.

Approved color palette: black, emerald green, midnight blue.

Logos must remain legible and unaltered.

D. Enforcement and Revocation

All authorizations are revocable at will.

Goodwill accrues solely to Aun Ali / Renaissance-Ecosystem.

Violations will be prosecuted under Canadian and international trademark law.

5. Disclaimer and Differentiation

A. Distinct Origin and Scope

The Atlas Project™, PoLE™, and GBSS™ were originally conceived by Aun Ali (2020 – 2023) and developed within Renaissance-Ecosystem (Canada).

They are unaffiliated with any other entity using similar nomenclature (e.g., Star Atlas, Atlas Coin, Sweatcoin, Fitbit).

Repository timestamps and documentation confirm independent origination.

B. Purpose and Philosophy

Renaissance-Ecosystem (Canada) promotes ethical, regenerative technology integrating health, art, economics, and environment.

The system operates under principles of:

1. Transparency and decentralization
2. Ethical automation and privacy-preserving data use
3. Redistribution through wellness and creativity
4. Public benefit over private gain

C. No Investment Promise or Security Offering

Atlas PoLE Coin™ and related tokens represent proofs of effort and well-being, not securities or investment contracts.

Participation is voluntary and aimed at wellness, community stability, and social equity.

D. Third-Party Reference Clause

Mentions of external systems are for educational comparison only; no endorsement or affiliation is implied.

E. Continuity and Ethical Governance

All successors to Renaissance-Ecosystem projects must uphold non-coercion, transparency, and public-benefit ethics.

No future custodian may monetize user data or diminish participant rights.

6. Copyright, Jurisdiction and Seal of Origin

Copyright Notice

© 2023 – 2025 Aun Ali / Renaissance-Ecosystem (Canada)

All Rights Reserved.

Unauthorized reproduction or distribution is prohibited.

Jurisdiction & Governing Law

Governed by the laws of Ontario, Canada. Disputes shall be heard exclusively in Toronto courts.
